### REPORT

OF THE

# MUNICIPAL COURT.

MARCH 1, 1897, TO MARCH 1, 1898.

OFFICERS OF THE MUNICIPAL COURT, 1898.

ALBERT S. BATCHELLIOR,\
Justice.

LEWIS B. HEALD, Special Justice.

PAUL R. CLAY, Clerk.

CHARLES R. COBURN, Deputy Sheriff.

SOLON L. SIMONDS, Chief of Police.

There is nothing of special interest to be reported with reference to the court or its business in the past In the first year of service of the present justice 47 cases on the criminal side came before the court; last year, 28; and this year, 26. Very few civil actions are presented because an appeal lies in every instance to the Supreme Court and parties generally prefer to bring suit in the court of final jurisdiction. It is a subject which may well command the consideration of the next constitutional convention. The Supreme Court is now required to consider a multitude of very trivial actions which might more advantageously be disposed of finally and without appeal by local courts. These are already provided in nearly all the large towns, and their territorial jurisdiction is ample. The mischief is in the defect in the system which affords an appeal in too many cases which ought never to be taken to the Supreme Court.

The usual statistical tables accompany this report and will afford all the information which the public would be presumed to care about. The town having voted to give the Selectmen authority to fix the compensation of the officers of this court, action was accordingly taken, and, since April 1st, 1897, the fees of the court have gone to the town, and the officers of the court have been paid by fixed compensation.

It has not been deemed necessary to carry out in the summaries the amounts which complainants and magistrates drawing warrants and officers having fees on complaints have been paid by the parties and not by the town. These matters all appear upon the records of the court, but are not of sufficient interest to the public to make it necessary to include them in detail in the fiscal reports.

Submitted by
A. S. BATCHELLOR,
Justice of the Municipal Court.

# REPORT OF THE TRUSTEES.

The Public Library has continued in its unostentatious but effective cooperation with other educational agencies the past year on substantially the same lines and methods as heretofore pursued.

The recommendations made to the town last year met with the approval of the people and the action of the voters in town meeting placed the institution on a reliable financial basis sufficient for all the ordinary current requirements.

The portrait of Mr. Bingham, which was substantially completed for the library but not delivered at the time of the report for last year, has been received and given appropriate place on the south side of the reading room. The grateful acknowledgement of the Trustees has been tendered to Mr. Strain and a record of this action has been extended on the books of the secretary. This splendid work of art will serve the double purpose of keeping the artist and the subject of his brush in "perpetual remembrance." The Trustees venture in this connection the suggestion that this portrait may well be regarded as a standard for similar memorials which may be placed in the custody of this institution. Others who have been identified with the town are worthy of this distinction. Art can be invoked to no better purpose and money can be devoted to but few uses that better commemorate men and women of character and eminence than in skilfully painted portraits.

The reports of the several Committees, the Treasurer, and the Librarian are herewith submitted. They present the particulars of the expenditures and the details of administration for the year.

#### REPORT OF THE COMMITTEE ON BOOKS:

The deep and growing interest taken in our library must be a constant delight to those who suggested the idea and advocated it, and who so wisely laid its broad and sure foundation, such a foundation as we are able year by year to build upon. No one can sit an hour in the waiting room and watch the throngs of school children searching the catalogues and calling for books of reference to aid in preparing their school essays, and carrying home well selected novels to help pass the spare half hours between work and play, but must see the important factor the library is in the child life and the home life of the people.

The chidren are not reading trash; the lighter literature is most carefully selected and the best of its kind. It is the purpose of the committee to study the tastes, to consider the demands, and to select something in every line of thought, so our library shall not be a distortion, but a symmetrical, well developed whole.

It is impossible with the appropriation to keep up with the new publications and to keep the library supplied with the standard works which are constantly wearing out. We may seem tardy in not placing on our shelves the books which at once catch the great reading public; we are simply subjecting them to the test. If they survive it they will be there. We have added this year 156 books; 125 are new, 31 to replace the worn out. We have been filling out the magazine sets, having added 55 bound volumes.

During the year 14,400 books have been loaned, only 71 per cent fiction, a gain of 9 per cent over last year.

The reading room is better equipped than ever, and is splendidly patronized.

The book committee have just this suggestion to offer to the friends of the library, and that is that there shall be small endowments made to the library, the interest of which shall every year be spent for books on some one subject: electricity, art, architecture, etc.

DELIA B. MITCHELL,
JULIA A. EATON.

#### REPORT OF THE COMMITTEE ON FINANCE.

To the President of the Board of Trustees:

The Committee on Finance beg leave to report as follows:

Your committee feel that the Treasurer's report will show fully the receipts and expenditures, and it is needless to make any extended summaries here. According to the vote passed at the last March meeting, the Trustees will have the benefit for two years more of the appropriation then made of \$500 for regular running expenses, and \$200 for the reading room, and we feel that, although more money could be advantageously used, especially in the way of new books, still, with the appropriations accorded us, all necessary running expenses can be met and the usual \$200 in new books can be purchased.

GEORGE H. TILTON.

## REPORT OF THE COMMITTEE ON ROOMS. To the President of the Board of Trustees:

The Committee on Rooms submit the following report:

The principal event in the library affairs the past year is the acquisition of the portrait of Hon. Harry Bingham, LLD., painted and presented by Daniel J. Strain, the eminent American artist, in whom Littleton has special pride as one of the most worthy of those of her sons who have attained distinction abroad in various difficult and exacting callings.

The portrait is two-thirds of life size and is mounted in a large and elegant gilt frame. It has been hung on the south wall of the reading room and as an addition to the furnishing and adornment of the library is as attractive as it is valuable. It is among the most important donations that either the town or the library has ever had the privilege and pleasure of acknowledging.

This committee make no recommendations involving any additional grant of money by the town beyond what is provided by the standing appropriation for the library. We renew the recommendations and suggestions made last year relative to a book truck, and exhibition case for curios and relics.

HARRY W. RANLETT, MANDANE A. PARKER, A. S. BATCHELLOR.

#### REPORT OF THE LIBRARIAN.

To the Trustees of the Littleton Public Library:

During the year past, 14,400 books have been loaned, 71 per cent having been fiction, 9 per cent history and travels, 3 per cent biography. 150 cards have been issued, the last number being 2,326. 343 volumes have been added, 156 books and 15 volumes of bound magazines have been purchased, 10 volumes of magazines bound, 40 books and 110 pamphlets received from State and Government, 12 donated by individuals and societies. 4 books have been withdrawn, leaving a total of 6,335 volumes.

Respectfully,
HANNAH F. MERRILL, Librarian.

#### REPORT UPON PROGRESS

OF THE

### TOWN HISTORY COMMITTEE

FOR THE

YEAR ENDING FEBRUARY 20, 1898.

# REPORT OF THE . TOWN HISTORY COMMITTEE

Since the last report of the committee having this work in charge, the manuscript of about half of the entire amount has been put in the hands of the printers and the printing is so far advanced that one of the two volumes contemplated is now through the press and substantially completed, unless it is deemed best to include with this one rather than the other, the statistical and military tables and records.

The printed sheets of this volume will be ready for examination by citizens who may be present at the annual town meeting March 8.

The printing of the other volume will proceed in its order, and the delivery of the books will occur at an early date, depending on the celerity of the printers in running the copy through the press and binding the sheets in book form.

The printing has been contracted, and the work is in the hands of the University Press, at Cambridge, Mass.

The engraving and printing of illustrations, over 100 in number, has been done by Folsom & Sunergren, 25 Winter Street, Boston, and they are now in the hands of the binder.

The provisions and directions of the vote of the town on this subject have been strictly pursued in the prosecution of the work. The Treasurer's statement, which is submitted herewith, gives an account of the financial transactions in this department since the close of the last previous fiscal year.

Respectfully submitted,

#### VOTE OF THE TOWN MARCH 8, 1897.

Voted that the sum of five thousand dollars be appropriated for the work of completing and the expense of publishing the Town History; that the Selectmen be directed to borrow the sum aforesaid on the credit of the town, on notes, one or more for the sum of twenty-five hundred dollars payable in one year from their dates, at the lowest rate of interest practicable, and one or more payable in two years from their dates for the balance; that the history be published in two volumes, with an edition of one thousand copies of each volume; that the volumes be sold in sets at two and one half (2.50) dollars per volume to all who purchase within the first year; that during the second year after publication the price may be raised to \$3.50 per volume; that the proceeds of the sale of these books be paid to the Town Treasurer

and set apart as a special fund to meet the said notes as they become due; that no copies of the work be donated to any person, whether connected with the preparation and publication of the work or not, and that no discount upon the price above fixed be allowed, except on sales to the regular book trade in consideration of large purchases; that so much of the sum raised and appropriated as the Committee may find necessary shall be paid from time to time to the Treasurer of the Committee in liquidation of bills and satisfaction of contracts approved by them in writing, on orders drawn on the Treasurer of the Town by the Selectmen, and that a sum sufficient for the current expenses of the Committee in the prosecution of the work shall in like manner be placed in the hands of the Treasurer of the Committee to be duly accounted for by him, except that one set may be donated to each of the following named persons and institutions, to wit. the present Secretary of State, the Littleton Public Library, the Library of Dartmouth College the New Hampshire Historical Society and the State Library.

### DIRECTIONS.

The glass covered box on side of alarm boxes contains the key; get the key by breaking the glass, and open alarm box; pull down the hook, letting go at once. For second alarm, pull down the hook after first alarm has rung.

The alarm will indicate the station from which the signal was given. Thus, a signal at Station No. 42 will be sounded by four strokes of the bell, followed by two strokes. This will be repeated, so that notice will be clearly given that fire has broken out in the vicinity of Station 42, if that be the case, because the alarm sounds a four, by four strokes of the bell, and a two by two strokes of the bell. In this way Station 42 is indicated. The other stations will be indicated in a similar manner, the second number struck by the alarm bell corresponding to the number in unit's place, either 2, 3, 4, 5, 6 or 7, as the case may be.
